

## **NoLeadFines Refund Policy**

Sorry, but we don't provide refunds on any fees or charges related to your account, including partially used periods and bank/merchant fees unless service is interrupted. See the Terms of Service document.

An exception we may consider is providing a refund when we've updated your payment information and there are good reasons to believe that you didn't intend for an update to be made.

Also, under the laws applicable in your jurisdiction, you may qualify for a refund if you request it during a 14-day period of time after the beginning of your subscription. Please note that this 14-day period begins when the subscription service starts. In the event of a free trial promotion, it happens before you are first charged and there may be no fees paid to be refunded.

*Note:* When canceling your account, all of your features expire as soon as your cancellation takes effect at the end of your current billing cycle. Make sure you download all your project files before your account is canceled.
